

Proposal EEE Roadmap COP21

**UN AND
CLIMATE
CHANGE**

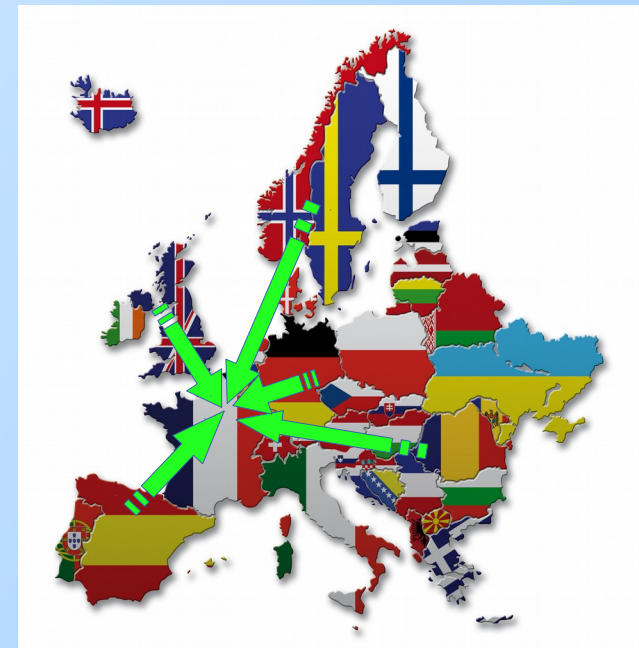

COP21: Proposed Actions / Roadmap

- Europe / worldwide starshape march of activist groups to Paris
- Demo when officials enter COP conference plaza with pictures of VIPs demanding an ICC for environment and health, series of flashmobs
- Guinness record entry for longest press conference presenting currently happening ecocides
- Demo trial against a large ecociding company like Shell or Chevron

Europe / worldwide starshape march of activist groups to Paris

- With support from many NGOs like Greenpeace and FoE, Fracking activists in Germany, UK, Romania and other countries it should be possible to gather a large amount of activists. Potential coop with <http://peoplesclimate.org>
- Travel reimbursements might be possible via EU funding (application ongoing)
- Starting from other countries or at the outer districts of Paris (TBD)

COP21: Public Protest

Demonstration of 10.000 or more people with pictures of VIPs demanding an ICC for environment and health

"Zur Zeit erlauben wir unseren politischen und wirtschaftlichen Führungskräften, zu morden. Jetzt ist die Zeit, dies zu ändern. Wir brauchen direkte Verantwortung für jene, die unseren Planeten und damit unsere Zukunft zerstören. Wir brauchen eine schnelle und fundamentale Änderung unseres Wirtschafts- und Gesellschaftssystems. Geschichte wird geschrieben, wenn mutige Menschen aufstehen und sich für eine Idee einsetzen. Aus diesem Grund unterstütze ich die Bürgerinitiative, um Ökozid als das Verbrechen anzuerkennen, welches es darstellt."

Aus diesem Grund unterstütze ich die Bürgerinitiative um Ökozid als Verbrechen anzuerkennen.

KUMI NAIDOO
Executive Director
GREENPEACE International

vote at www.endecocide.org

A Citizens' Initiative to give the Earth rights

Concept ideas for Flashmobs I

- Toxic cloud, 50-60 participants, coughing, finally chocking on the toxic cloud after a minute, silence then using loudspeakers to present a list of ecocides

- Burning a set of plants with green leaves (can be paperboard crafted plants) to produce a lot of smoke visualizing the destruction of rainforests

Concept ideas for Flashmobs II

- Auction selling fresh water, clean air, non toxic soil to desperate people offering luxury, consumer stuff, then closing auction and people having to wear gasmasks and drinking dirty water again

- Group of participants dressed as animals, living in peace, then being hunt down by people for money

Guinness record entry for longest press conference presenting currently happening ecocides

- Ecocides either presented by Activists / VIPs or by children of that country or both / mixed
- At minimum 24h, live stream, website with map and populated as press conference is ongoing, twitter stream, ...
- Similar to EJOLT map, see www.endecocide.org →
Examples of Ecocide
- Needs in between activities to keep it interesting for media (skype calls, flashmob news, ...)

Demo trial against a large ecociding company like Shell or Chevron

- Possible cases could be based on the court rules about Nigeria from last year but this time based on international criminal law
- If too dangerous we could also think about a generic case of a large oil company either causing havoc based on traditional oil disaster or based on large scale disasters caused by e.g. fracking

COP21: Timetable

Activities	Oct	Nov	Dec	Jan 15	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
