

**WOULD
COMPANIES STILL
COMMIT **ECOCIDE**
IF THE BOARD OF
DIRECTORS WENT
TO PRISON FOR
THE CRIME?**

ONE LAW TO CHANGE IT ALL

Vote now to End Ecocide

www.endecocide.eu

Our Vision: *A healthy and sustainable planet
where we, future generations, and
all living beings, live in harmony in nature.*

Our planet needs protection. Environmental Justice is essential to ensure a healthy planet for us and future generations.

We propose a non-violent solution to prevent further mass destruction of ecosystems and to protect our common future.

The destruction of our environment is a crime - a crime for which those responsible should be held accountable.

This crime has a name: **Ecocide**

To prevent this crime from happening two things are needed.

A law and a court to try those breaching the law.

That's why we follow a two-fold strategy:

① We urge the EU Parliament to create a law against Ecocide.

② We urge the International Community to create a European and an International Criminal Court of the Environment and Health. This Charter will be submitted to the Secretary-General of the United Nations, Ban Ki-Moon, in September.

You can sign BOTH petitions at www.endecocide.eu
